EX-PRESIDENT AND VICE PRESIDENT

Of Mexico Are Killed By Guards While Being Conducted To Confinement

MORE BLOODSHED FEARED

Mexico City, Feb. 24.—Francisco I. Madero and Jose Pino Suarez are dead. In a midnight ride under guard from the national palace to the penitentiary were killed.

The circumstances surrounding the death of the deposed president and vice-president of the republic are unknown, except as given in official accounts, which do not conform in all cases. The only witnesses were those actually concerned in the killing.

The provisional president, Gen. Victoriano Huerta, says the killing of the two men was incidental to a fight between their guard and a party attempting to liberate them. The minister of foreign relations, Francisco de la Barra, adds that the prisoners tried to escape. Nothing makes a definite statement as to which side fired the fatal shots. It is not impossible that neither knows.

An official investigation has been ordered to determine the responsibility, and solemn promises have been made that the guilty will be punished.

'Shot While Trying To Escape'

Not unnaturally a great part of the public regards the official versions with doubt, having in mind the use for centuries of the notorious "legions," the unwritten law which is invoked when the death of a prisoner is desired. After the application this is written on the records "prisoner shot trying to escape."

Senora Madero, widow of the ex-president, received the first definite information of his death from the Spanish minister, Senor Colocan y Colocan. She already had heard reports that something unusual and serious had happened but friends had endeavored up to that time to prevent her from learning the whole truth.

Soon afterward, accompanied by her brother, Jose Perez and Mercedes Madero, a sister of Francisco, Senora Madero drove to the penitentiary, but was refused permission to see the body of her husband. Senora Suarez also was denied admittance to the mortuary, where physicians in accordance with the law, were performing an autopsy.

Continuity In Advertising

The merchant who places advertising in only a few newspaper issues is sometimes disappointed that large results do not immediately follow.

Modern life is crowded with interests, people live in a hurried way and public attention is flimsy. Let the advertiser consult the new science of salesmanship and business psychology. He will be told that nothing affects the mind like repetition. Constant dropping wears away the stone that is not affected by the single hard blow.

If a man of striking appearance passes by your place only at long intervals, you would scarcely recollect his features from time to time. If a person of ordinary appearance passes regularly for a short time, his face becomes firmly fixed in your mind.

The merchant who will advertise regularly even if only in a small space will be surprised to see how the public will look for him in his regular position and be disappointed if he fails to appear.

The familiar name in the business news is greeted with as much pleasure as the familiar face that you meet on the street. Once interest is created by a man's methods of advertising, readers turn to him as a serial story.

Outbreak Of Smallpox

Princeton, Ky., Feb. 24.—The second outbreak of smallpox has occurred in the Hopson vicinity, this county. The existence of the disease has about abated in that community but a number of new cases have developed. There have been about fifty cases in all. So far only one death has resulted from the disease, a quite a number of the cases were very mild.

INDIGESTION, GAS OR SICK, SOUR STOMACH

Time "Pape's Diapepsin" in five minutes all stomach misery is gone

"Really does" put bad stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that's just that—makes Pape's Diapepsin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, indigested food and acid; head is dizzy and aches; breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment "Pape's Diapepsin" comes in contact with the stomach all such distress vanishes. It's trial—its long-ages—most marvelous, and the joy is in its harmlessness.

A large list of cases of Pape's Diapepsin will give you a hundred dollars' worth of satisfaction. Think your druggist sends you your money back.

It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night. It's the quickest, surest and most harmless stomach doctor in the world.

HERBINE

For the Bowels

A Cure for Chronic Constipation, Torpid Liver and Irregular Bowel Movements.

Constipation is the most common disorder of the bowels. It affects both sexes and all ages but is more prevalent among women because their duties in the household require less physical exercise than the occupations of men; therefore women suffer most from its baneful effect.

A constipated person is an easy victim when exposed to any serious disease—Pneumonia, Typhoid Fever, Malaria, Rheumatism, Small Pox, Yellow Fever and Bright's Disease gather their annual harvest of death among those who are habitually constipated. Even though they escape these diseases, such persons are always ailing more or less. They have headaches, bad digestion, dizziness, vertigo (blind staggers), sallow complexion, flatulence, loss of strength; and no energy at all. Herbine has a most admirable effect in the bowels; it is cooling, purifying and regulating. It puts a prompt check on biliousness, wind in the bowels, nervousness, heartburn, bad breath, low spirits, drowsiness in the daytime and nervous wakefulness at night.

Price 50c per Bottle.

SOME FACTS OF INTEREST

To The People of This Community Regarding the Dreaded Hook Worm

THIS STATE HEAVILY INFECTED

In a recent issue of the Winchester Democrat, Dr. I. A. Shirley, of the State Board of Health, who attended the Conference of Sanitary Workers in the South States at Little Rock, Arkansas, recently, gives the following facts which are of interest to the people all over Kentucky:

1st. It is the firm belief of every one engaged in the work of improving sanitary conditions in the South so as to make it possible to prevent disease and make life longer and healthier, from the Administrative Sanitary Secretary in Washington to the field men on the firing line, that no greater work has ever been undertaken since that of the week and lowly Galleen.

2nd. That eradication of the hook-worm disease and not amelioration is not only possible but that nothing short of this will suffice the work of the workers.

3rd. The same story came from all parts of the Southland of well nigh miraculous cures.

4th. The belief, born of experience, that no other disease holds its unfortunate victim so long as hook-worm disease; that no other disease makes the one afflicted with it for such a length of time a menace to those around him; that no other disease of equal magnitude is so surely and speedily curable.

5th. That no other disease shows such a variety of symptoms and sometimes no symptoms at all, as hook-worm disease.

6th. That while as a rule it is to be found where the sanitary conditions are the worst; that is, where the privies are not water tight and fly proof, yet it is found under better surroundings sufficiently often to make it the imperative duty of every one, who leaves ideal environments for even a short time to seek examination lest the monster disease, like a thief in the night, steals a march upon him, to be diagnosed when it may be everlastingly too late.

8th. Hookworm carriers, persons harboring very few worms and positively without symptoms, except, occasionally, indigestion, are among the most dangerous members of the community as propagators; hence the duty that everybody owes to themselves and the community to be absolutely certain that they are free from these worms.

8th. That from the examination of more than 30,000 people from 118 counties our own beloved State is found to be one of the most heavily infected, and we earnestly hope for such a co-operation of our fighting facilities, county, municipal and individual, that ere long it can be truthfully said that Kentucky, the flower of the constellation of Southern States, is for one, at least, free from this blighting curse.

9th. That every citizen who has not already done so, should secure a copy of the Bulletin of the State Board of Health from its office in Bowling Green, telling about this disease and should submit the necessary specimen so they can know whether they have it or not.

MOTHER! WATCH THE CHILDREN'S BOWELS

If cross, feverish, sick or tongue coated give "Syrup of Figs"

Every mother immediately realizes after giving her child delicious Syrup of Figs that this is the ideal laxative and physic for the children. Nothing else regulates the little one's stomach, liver and 80 feet of tender bowels so promptly, besides they dearly love its delightful fig taste.

If your child isn't feeling well; resting nicely; eating regularly and acting naturally it is a sure that its little insides need a gentle, thorough cleaning at once.

When cross, irritable, feverish, stomach sour, breath bad or your little one has stomach-ache, diarrhoea, sore throat full of cold, tongue coated, give a teaspoonful of Syrup of Figs and in a few hours all the foul, constipated, clogged up waste, undigested food and sour bile will gently move on and out of its little bowels without nausea, griping or weakness, and you will surely have a well, happy and smiling child again shortly.

With Syrup of Figs you are not drugging your children being composed of luscious figs, senna and aromatics, it cannot be harmful.

Mothers should always keep Syrup of Figs handy. It is the only stomach, liver and bowel cleanser and regulator needed—a little giving today will save a sick child tomorrow.

Full directions for child at all ages and grown-ups plainly printed on the package.

Ask your druggist for the full name "Syrup of Figs and Elixir of Senna," prepared by the California Fig Syrup Co. This is the delicious tasting, genuine old reliable. Refuse anything else offered.

It Pays To Advertise In The Bee

Miss Hazel Pawcett, lost her watch Friday and it was brought to the Bee office by the little daughter of Mrs. R. V. Poag Saturday morning, who said that they had seen the advertisement in the Bee that the watch had been lost. This shows that the Bee as an advertisement medium can't be beat.

King Drag Used

The King Drag has been used on the roads out of Madisonville and has proved all that it is, all that was ever claimed for it. G. W. Sybert demonstrated it to a crowd in Hopkinsville last week at a meeting of the Good Roads Association and he also made an address to a large crowd in the Christian county court house. Mr. Sybert understands what good roads means.

PRESCRIPTION

For a Long Life.

This is the prescription for a long life given by an old gentleman in Connecticut, who is ninety-nine years old and still well and cheerful. "Live temperately, be slow to anger, don't worry, take plenty of exercise in the fresh air, and, above all, keep cheerful."

Should the system get run down—digestive organs weak—the blood thin and sluggish, take Vinol, which is a delicious combination of the medicine—body-building properties of cods' livers, with the useless grease eliminated and tonic iron added. We regard Vinol as one of the greatest body-builders and strength-creators in the world for aged people.

Mrs. Mary Ivey, of Columbus, Ga., says: "If people only knew the good Vinol does old people, you would be unable to supply the demand; it is the finest tonic and strength-creator I ever used."

We wish every feeble old person in this vicinity would try Vinol on our agreement to return their money if it fails to give satisfaction.

Local Evidence

Evidence that can be verified. Fact is what we want. Opinion is not enough. Opinions differ. Here is an Earlington fact. You can test it.

Mrs. Mollie Clements, Earlington Ky., says: "I was in such great pain from kidney trouble that I had to scream. After every doctor in this locality had failed to help me, I used Doan's Kidney Pills and they did wonders for me. I do not know what caused my kidney trouble. My back was so sore and lame that I had to catch a hold of chairs when walking. My limbs were swollen and my sight became affected. I was also nervous and dizzy and my head ached nearly all the time. One day a relative called on me and asked me if I had ever tried Doan's Kidney Pills. She said that if three boxes of Doan's Kidney Pills did not do any good, she would pay for them and insisted so persistently that at last I got some. They made me feel much better in every way. I believe that they saved my life. I am now entirely cured and enjoying better health than I have been for years."

Flag Missing From K. of P. Lodge Room

The large American flag that has been hanging on the wall in the Knights of Pythias Lodge room has mysteriously disappeared and no trace of it can be found. It is eight by ten feet and cost about twelve dollars. There are several other lodges that meet in the same room and none of them know anything about its disappearance. If Earlington was near the Mexican border we might account for the mystery.
